INTRODUCTION

We are a group of IT and Management professionals having complimentary expertise and working together under the banner of **VISION CONSULTANTS** to provide IT Strategy, software applications development, and IT training services to international clients as well as domestic industries in India.

DotNetNuke: We have been working with DotNetNuke ever since its inception. In-fact we have been developing modules on IBuySpy, the pre-cursor of DNN. We have developed more than 60 very useful Modules and various Skin-Objects & Skins. We are the original developer of “Multimedia JukeBox”, an excellent Media Module as well as “PayPal Product Catalog” an easy to use yet minimum configuration eCommerce module. We have shared some very useful ideas with DNN Core team, viz. the Install Version, multi-module etc. We have also executed large Intranet, Extranet & Internet projects using DotNetNuke.

You may see our posts on DNN Forums (as well as former asp.net forum)

The main functionaries include:

- ✚ **Mr. Jaydeep Bhatt** – An IT consultant with degrees in Engineering and Management and having over 25 years’ experience in applications software development.
- ✚ **Dr. Nirlesh Kothari** – A Management and Systems Consultant with excellent academic background (Fellow of IIMA) and over 30 years’ experience in Management and Systems consultancy, and academics.
- ✚ **Mr. Santosh Patel** – An Industrialist with degrees in Engineering and Management and having over 25 years’ experience in Online Tracking, Mobile Applications, Audio & Video Industries and FPGA based Electronic ASICs.
- ✚ **Mr. Umesh Shah** – A Marketing and Management Consultant with masters in engineering having more than 40 years’ of experience and international exposure.

The group also has several senior and middle level software professionals with expertise in software project management, system architecture, software development and software testing.

VISION is the ability to see the **INVISIBLE**

Our completed projects include:

- 1. Transport ERP & CRM System:** Developed a Transport ERP & CRM System for [JRC Transportation](http://www.jrctransportation.com) (<http://www.jrctransportation.com>) We have placed the staging site at <http://jrc2.jrcdispatch.com> . It covers the complete system from picking up the Load from customers' premises, assigning Truck/Trailer, Driver etc, and delivering to designation. It also covers the billing to concerned stack-holders. WAP method of developing Modules was used and scripts were written for automated packaging. Free Microsoft ReportViewer was used for generating Reports.
- 2. Spirit Intranet:** Developed and implemented a complete Intranet Portal, using DotNetNuke for a USA Telecom giant. The WSP method was used for developing more than 19 different Modules. The System leverages full capabilities of .Net, VB.NET, Crystal Reports and other latest tools.
- 3. eRegistration Portal:** Developed a complete eRegistration Portal, using DotNetNuke for a Nigerian Payment Service Provider. The WSP method was used for developing more than 13 different Modules. The System leverages full capabilities of .Net, VB.NET, Crystal Reports and other latest tools.
- 4. Large Intranet Portal (with Portlets/sub-portals for each department):** Developed and maintaining a Large Intranet Portal for an Indian multi-product/multi-location Company. The projects includes development of customised Modules, configuring, altering & using ready-made purchased/free Modules. Modules.
- 5. Public Facing large Portals for an European Client:** We have developed, hosted and maintaining public facing Portal for an European client working in the field of Online Education.
- 6. ERP System:** Developed and implemented an ERP System for a mid size company from Plastic Industry. The system integrates different business applications such as marketing and sales, CRM, purchase and inventory management, HR and payroll, and financial accounting system. The System leverages full capabilities of .Net, C#, Crystal Reports and other latest tools.
- 7. Business Applications:** Developed a variety of business applications for small businesses which include a Distribution and Trading company, an Engineering company, a Chemical company, etc.
- 8. DotNetNuke Modules:** Developed 60+ modules on the most widely used Web Application Framework DotNetNuke (<http://www.dotnetnuke.com>). Some of the details of these modules are placed at our site <http://www.bhattji.com/products> .

VISION is the ability to see the INVISIBLE

The notable modules are MorphMod, Paypal Product Catalogue and Multimedia Player.

9. DotNetNuke Tools:

- a. Developed [DotNetNuke Module Generator](#) which generates full-compliant DNN Modules, implementing all the Interfaces, in a jiffy.
- b. Developed VB.NET as well C# Module Development Templates for ASP.NET 3.5 as well 2.0, with and without utilizing AjaxControlToolkit Controls. The Templates have various options viz. Generating DNN Label or ASP Label control as PortalLabel
- c. Written MyGeneration Scripts for assisting Rapid Module Development.
- d. Written NANT Scripts for Automated packaging.
- e. Written MS Build Task Scripts for Automated packaging.
- f. First to initiate and developed NANT scripts for striping unnecessary source code files and generating clean Install zip file (under the pen-name IndianGuru @ DNN)

10. Software for transliteration: Developed SARAL – a Universal Input Method Editor catering to a variety of scripts for transliteration. It is capable of enabling the user to work on any of the languages of the world.

11. Websites: We have developed various websites in .Net, php, HTML, CSS and JavaScript. Our clients include top notch IT companies, Gujarati Newspaper Daily, Government Agencies etc

12. Training: We are involved in IT training and running finishing school for final year under-graduate students and fresh graduates. We also conduct in-house training for corporate clients. We have given training on latest tools & technology to veteran developers, to upgrade their skills.
